

Chief, Industrial Division, ORR

8 June 1959

Chief, Aircraft Branch, I/AR

Soviet Fair in New York

- 25X1A9a
1. This branch would like to send Mr. [REDACTED] to New York if Koslov comes to New York in a Tu-104B or a Tu-114 transport aircraft.
 2. Koslov is supposed to fly to New York on either 28 June or 29 June in a Soviet aircraft. The type of aircraft to be used is not yet known. If the aircraft is a Tu-114, observation of the aircraft will furnish intelligence on the manufacturing methods being used for heavy bomber aircraft. If the aircraft is the Tu-104B, observation of the aircraft will settle the question of whether or not Tu-104A aircraft are being modified into Tu-104B aircraft.
